3. The assigned mechanization of means of production in agriculture and forestry is set at a value of 2,171,558,000 crowns according to the allocation in Table 9.

4. This decree shall be carried out by the Ministers of Agriculture and Food in agreement with the interested members of the government.

Table 1. Plant Production

<u>Product</u>	<u>Quantity to Be Produced</u>
	(In thousands of tons)
Wheat	1,435.0
Rye and grain mixture	1,131.0
Barley	1,133.0
Oats	1,034.0
Corn	261.6
Legumes	55.0
Early potatoes	110.0
Other potatoes	8,448.0
Sugar beets	4,815.0
Oil plants	59.6
Chicory	86.5
Hops	6.75
Paprika	1.2
Tobacco	10.4
Fodder plants	11,400.0
Grain mixtures	85.0
Field vegetables	682.4
	(In thousands of units)
Cultivations for transplanting of	
Fruit trees	2,150
Fruit bushes	1,200
Vine seedlings	1,750
Vine stock cuttings	3,650
Fruit stock nurseries	4,850
Fruit bush nurseries	1,280

Total annual value of plant production is 51,368,800,000 crowns.

Table 2. Planned Output per Hectare, Area Seeded, and Purchases

	<u>Output Per Hectare</u>	<u>Area To Be Seeded</u>	<u>Quantity To Be Purchased</u>

<u>Animals</u>	<u>Number</u> (in thousands)
Cattle	3,833.5
Cows	1,960.0
Pigs	3,650.0
Soys	462.0
Hens (as of 1 Jul 1949)	13,400.0

Table 7. Forestry

	<u>Quantity</u>
Reforestation	47,000 ha
Production of forest seedlings	304,000,000
Harvest of forest seeds	26,000 q
Cultivation of forest growth	251,300 ha
Cutting (output) of wood	12,142,000 cu m
Removal of wood	12,835,400 units ?
Forestation of nonforested land	11,700 ha
Forestation to prevent erosion	1,650 ha
Establishment of wooded protective belts	160 ha
Care of forest growth on banks	160 km
Animal hunting	1,040,000 head

Table 8. Indexes of Quality and Efficiency

<u>Individual Tasks</u>	<u>Index</u>
Reforestation	
Structure of basic forest growth	Average 56.5% coniferous Average 43.5% deciduous
Fulfillment of needs for forest seedlings of domestic production	100 %
Survival of forest seedlings	100 %
Cultivation and transfer to forest growth	
Rate of increase	20 %
Output of wood	
Daily output of a woodcutter	1.95 cu m
Total annual value of forest production is 4,055,800,000 crowns for wood and 55,800,000 crowns for hunting.	

Table 9. Gross Value of Various Types of Mechanical Equipment (including imports)

<u>Type</u>	<u>Value (in thousand crowns)</u>
Heavy investment items	75,000
Light investment items	
Machines for tilling and preparing the soil	154,283
Sowing machines	28,460
